Alawishus Pixel, Xbox Indie Favorite Now on Windows Phone 7

In the tradition of 8-bit NES and SEGA classics comes Alawishus Pixel for your Windows Phone!

A port of the Xbox Live Indie Game favorite of which ExtraGuy.com says, "absolute proof that a dollar price is in no way a barometer for a game's quality" and also featured on the popular Independent Charles Show. Now take Alawishus on the go as you move through the 40, old-school-tough levels of this single-screen platformer.

While wandering the high mountains in the west, Alawishus spots an opening to a cave to which he obviously decides to explore. To his surprise, the cave collapses behind him and suddenly, he finds himself trapped. The object then, is to push a block from the beginning of the cave to a switch on the other side of the cave, which will open the exit to the next level. Sounds easy right? Well you'll have plenty of monsters, slugs and guns to stand in your way not to mention lava, moving platforms and switched platforms.

Along the way you'll find signs written by another lost traveler left with the hope that you will be the one to save him. In exchange, the signs will offer tips and encouragement so you can reach the ultimate goal of rescuing him and escaping the caves.

It can be purchased for 99 cents. The trial contains the full version supported by advertising.

Alawishus Pixel for the Windows Phone 7 Marketplace is **Available Now**.

About Frog The Door Games

Frog The Door Games is an independent game studio based in New Jersey and created by solo developer Matthew Biglan. You can contact me using any of the following resources:
